Mr. Thomas Geitz, Director
Air Pollution Control Division
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive
Denver, CO 80222-1530

Dear Ms. Hull and Mr. Geitz:

The Department of Energy (DOE) Rocky Flats Field Office (RFFO) is required to submit an air operating permit application to the Colorado Department of Public Health and Environment (CDPHE) for the Rocky Flats Environmental Technology Site (Site). It is our understanding that this permit has to include the provisions of the radionuclide National Emission Standards for Hazardous Air Pollutants (rad NESHAPs) contained in 40 Code of Federal Regulations, Part 61, Subpart H.

The RFFO has directed EG&G to prepare the permit application for submittal to CDPHE by the required due date of November 15, 1994. However, we have not received guidance on the rad NESHAPs portion of the application. Guidance on subjects such as major source definition, de minimis reporting levels, source exemptions, and fee structure is needed by November 1994 to ensure a complete and timely application. If guidance cannot be provided by then, RFFO will need an extension to the November 15, 1994 permit application due date. In addition, forms for reporting emissions in Curies, not tons per year, are needed for the application.

The RFFO requests that the Environmental Protection Agency (EPA) and CDPHE notify this Office about your plans to transfer/assume rad NESHAPs authority and that you provide RFFO rad NESHAPs guidance for the Site permit application. We also request that EPA and CDPHE meet with RFFO and EG&G within 30 days to discuss rad NESHAPs and other permit issues. Mr. Jon Dion, of my staff, will contact appropriate members of your staff to arrange for a meeting.

Sincerely,

Shirley J. Olinger
Acting Assistant Manager for
Environment, Safety and Health
